

CUT-OFF TOOL (75 mm)

RRG-1036FH

WITH ADJUSTABLE HEAD

This RED ROOSTER power cutter is used with 75 mm cutting discs. By this flexible tilting head, hard-to-reach places are more accessible, this maximizes the ergonomic properties and allows you to use a high precision grinding. This tool has a very powerful air motor of 600 Watt. Very suitable for precise cutting of, for example, sheet steel, body parts and exhaust pipes.

The grinding head can be tilted at an angle of 25 degrees in 2 positions.

25° UP

STRAIGHT

25° DOWN

CHARACTERISTICS

- Ergonomically shaped handle
- Direction of rotation can be changed to divert the park beam
- Excellent thermal insulation.
- Easy adjustment of the protective cover 360 degrees
- Silenced swivel rear exhaust
